

GS

Anyone looking for something fresh and new should take a serious look at any of our 1-way security systems. We know that the key to any sale is the quality and presentation of a product. Our remotes are built with the finest craftsmanship and exude quality from aesthetics and feel. When it comes to vehicle alarm security systems there's only one thing that truly matters to the consumer and that's the remote transmitter that will be hanging from the key chain. We offer a wide selection of 17 unique styles of remote transmitters to allow your customer to choose something they'll feel is uniquely theirs. It's the only thing visible once the system is installed, armed and ready. Each of the 17 remote transmitters offered can be programmed to any of the 1-way security systems offered. So why not sell them something that they can rave about and be proud of. Our alarm security systems provide free advertisement for your business through the most effective channel, word of mouth. People love our product for its quality and reliability and absolutely love the attractive remote styles that we offer. It's a conversation starter for many whether you're someone who is a car enthusiast, a car aficionado, or just someone who simply needs a security system to protect your valuable possession.

Our state-of-the-art GS-700A security system will arm or disarm your system with the push of a button from up to 1,500 feet away and confirm all your commands on the large LCD screen of the 2-way remote transmitters. If your siren sounds, the remote will beep to let you know, from up to 1,500 feet away. The GS-700A 2-way security system comes with two 2-way LCD remote transmitters.

Our state-of-the-art GS-750RA security and remote start security system will start your car with the push of a button from up to 1,500 feet away and confirm it has started on the large LCD screen of the 2-way remote transmitter. Alarm features work the same way: when arming or disarming your system, you will receive confirmation on the 2-way LCD remote transmitter, and if your siren sounds the remote will beep to let you know, from up to 1,500 feet away. The GS-750RA 2-way security system comes with two 2-way LCD remote transmitters.
